Company Description

PMO Strategies is a training and consulting firm that helps leaders transform PMOs into hyper-focused IMPACT-driven engines to maximize return on investment for every project in the organization. Our goal is to ensure that PMO leaders and executives have the resources they need to create a sustainable PMO solution that becomes an integral part of organizational strategy realization.

Their approach is different from the typical "big consulting" cookie-cutter approach that costs a lot of money, takes a long time to implement, and often misses the mark on what matters most. Instead, they create a right-sized solution, leveraging their own best practices and training programs, to ensure that the journey continues long beyond the engagement, thereby creating a sustainable and manageable solution that business leaders support.
